

# TREE OF MASTERY

Pick an ice skating skill that needs some practice and track your progress with the Tree of Mastery!

1. Pick a skill that needs improvement and write it on the line below the tree.
2. For every five times you practice that skill, draw a leaf on the tree.
3. Even though leaves are falling outside, watch your tree bloom as your skating improves!
4. Share your accomplishments with the hashtags #LearnToSkateUSA and #TreeOfMastery.
